

`basic_json::unflatten`

```
graph LR; A[basic_json::unflatten] --> B[json_pointer::unflatten]; B --> C[json_pointer::get_and_create];
```

The diagram illustrates a sequence of three operations. It begins with a box containing the code `basic_json::unflatten`. A blue arrow points from this box to a second box containing `json_pointer::unflatten`. Another blue arrow points from the second box to a third, shaded box containing `json_pointer::get_and_create`. The shading of the final box suggests it is the final or most significant step in the sequence.

`json_pointer::unflatten`

`json_pointer::get_and_create`
